Hx: G3P1011
GA: 38w3d (7/24/2019)
Blood Type: O Negative
GBS: None

L&D ENCOUNTER: TODAY
Planned Discharge: 2 d
Encounter for supervision of normal pregnancy

Francis Mountain, MD
Attending

Storyboard is an Epic automatic enhancement. The patient header will no longer be available. The Storyboard will now be viewable on the left side of the patient chart and the activities, which previously were on the left, will be moved to the top of the patient chart.

The Storyboard allows users to review a patient's story, take common actions such as acknowledging orders or reviewing the problem list, and jump to common activities.

Storyboard uses a combination of displays and hover reports – if information is not visible in the display it may be available when hovering.

Stork nurses and Stork ancillary staff will have 3 types of specialty Storyboards:

- ➢ **OB Labor**
- ➢ **OB Postpartum**
- ➢ **OB Newborn**

Attending

| Patient Identification	Displays who the patient is, where they are located, and the patient photo.
Notifications	Appear as icons to the right of the patient photo and as banners under the patient identification section
Key Information	Displays key information such as allergies, isolation, infection, etc.
Details	Shows additional reference information, such as relevant flowsheet data, history, results, Attending provider, etc.

NOVANT HEALTH

Pregnancy Status in Storyboard

Pregnant patients will display the Stork icon 🐦 to the right of their photo on the Storyboard.   Hover over the icon to see the tooltip indicating the "Patient is currently pregnant" as well as the gestational age.

Patient is currently pregnant.
Gestational age: 38w3d

Female, 28 y.o., 12/3/1996

MRN: 706100886

Breastfeeding Status in Storyboard

After delivery, when a patient's Breastfeeding Status has been documented as "Yes" in the Postpartum flowsheet > Breasts/Nipples group, the Breastfeeding icon will display to the right of the patient's photo in the Storyboard. Hover over the icon to see the tooltip indicating the "Patient is currently lactating."

FYI Flags in Storyboard

FYI flags will no longer display as light green banners under the patient's name. Instead, you will see the FYI Flag icon ⚑² **to the right of the patient's photo in the Storyboard. A number will also be present over the icon to indicate how many FYI flags are listed for the patient. Hover over the icon to see the tooltip showing the specific FYI flags.**
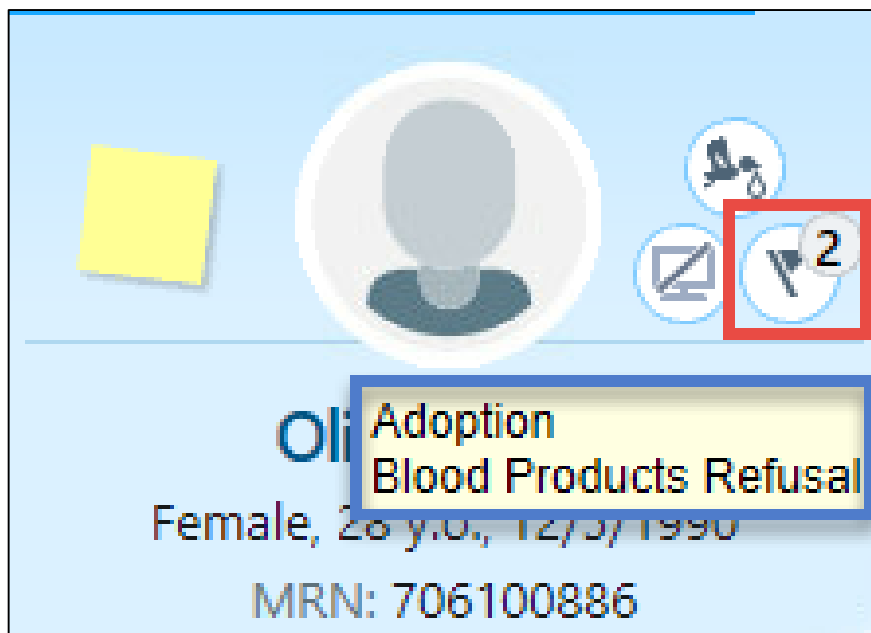

L&D Grease Board Column Personalization

Re-organize or remove columns in your L&D Grease Board views when you click the wrench to the right of the view buttons. In the Choose Columns tab of the Grease Board Personalization window, select the view you want to personalize then re-arrange columns or remove columns from the "Your Columns" section. Removed columns will be moved to the "Available Columns" section to be added back if desired.
