

N Teams: Get in the Game

Invitation for software education!

This is your starting point for learning Teams! This interactive learning activity begins with the basic functions of Teams. Together we'll create a team, member list, channels, upload files, create posts and manage tabs. Then participants will create their own Teams using these elements in guided breakout sessions.

Who should attend?

All Novant Health team members

Class dates and times

Wednesday, June 9, 10 to 11 a.m.

Register in I-Learn by browsing for: CET0037 Teams: Get in the Game. After registering, you will receive a confirmation email with further details.

Objectives

After successful completion, you will be able to:

- Describe elements of screen (Team, Channel, Wiki, Posts)
- Describe generic uses/applications
- Locate training in Teams – tutorials
