Shared Decision Making: A New Frontier for Case Management Leadership

Activity Steps

- 1 Activity -
- 2 Take Test
- 3 Certify

Description

The authors provide information about shared decision-making (SDM), a communication process. SDM enables a case manager and a client to collaborate to make the best health care decisions based on what matters most to the client. The authors include information about the ethics of SDM. The SDM process is applicable to all healthcare settings in which case managers practice.

Purpose of Activity

To provide information on shared decision-making (SDM) from a case management perspective.

Learning Objectives/Outcomes

After completing this continuing education activity you will be able to:

1. Examine SDM and its process, including the ethical mandate of SDM.
2. Identify components of the Agency for Healthcare Research and Quality's SHARE model.
3. Recognize the role of SDM in case management consent, communication, and relationship skills.

Disclosures

The authors and planners have disclosed no potential conflicts of interest, financial or otherwise.

Once you have completed a quiz, you can revisit results and the linked remedial courses for each question by selecting Details then Details again.

This screenshot shows the full Lippincott Learning interface. The top navigation bar includes "My Courses", "Browse", "Certification Review", "Transcripts", "Admin", "Lippincott® Advisor", "Lippincott® Procedures", and "Blended Learning". The main content area displays quiz results for "Cardiovascular Emergencies" completed on 2020-12-02 at 14:56:12. A pie chart shows 62.9% correct and 37.1% incorrect. Below the results, the "Quiz Answers" section shows a question about a compressive symptom of an expanding thoracic aortic aneurysm. The user's response was "aortic valve regurgitation", and the correct response was "hoarseness". The rationale states: "A compressive symptom related to an expanding thoracic aortic aneurysm is hoarseness." A red box highlights the "Remediation: Thoracic Aortic Aneurysm Repair" link, with a red arrow pointing to it.
