Updating Federal and State Tax Withholding Information and Enrolling in Direct Deposit

Important Task

Important Information to Review Before Getting Started

⚠ Federal & State Forms are used by the Payroll Department to calculate the amount of federal & state tax to withhold from your pay. **The amount of tax withheld is based on how you complete these forms**. You may change your information if your tax situation changes, and you choose to have tax withheld.

If you do not complete the online federal & state forms your filing status will default to Single for federal taxes and Single with zero allowances for your state taxes.

W4 and State form changes submitted by Tuesday of pay week (prior to the pay calculation) will be reflected in that Friday's paycheck.

⚠ **You must verify and/or enroll in direct deposit by Friday of your first week.** *If you are enrolling or changing your bank account information, you must use a Novant Health computer. You are only able to view your information from home.*
