

## WHO WE ARE?

Patients are the heart of Novant Health. We use technology to improve patient experience outcomes.

**We provide a different approach to the patient experience**  
by helping patients virtually connect to their providers.

**We help make healthcare personal**  
by creating multiple avenues of communication and using prediction analytics for care.

**We improve quality and speed through advanced technologies**  
to provide on-demand care for our patients.

**We manage and protect a complex internal network**  
to enable teams to access the tools and applications they need.
