

# Fast Blood In OR

(Patient has no type and screen and I need blood now. Will give 2 units un-crossmatched blood. Make sure patient is timed in the OR. This will give you the one-step prepare & release order. Call blood bank to notify after order is entered)

STAT, Until discontinued, Starting today at 1239, Until Specified  
Uncrossmatched blood: Authorized  
If Type and Screen is not current, due to the critical condition of the patient, I request the immediate release of blood product for transfusion. In the case of uncrossed emergency release blood product, I understand that the blood bank team members will perform compatibility testing (if patient specimen is available) and will report immediately any incompatibility they may find. Upon compliance with this request, the blood bank and its team members are released and held harmless from any liability arising by reason of the transfusion of uncrossmatched blood product.
