

N: Appreciative Approach: A Framework for Success

Invitation for leadership training!

In this instructor-led session, we will explore how to frame conversations using an appreciative approach. This can enable a more positive way of communicating to focus on what's going right and not what is going wrong.

Consider the following for attending this session:

- Do you know how to communicate by focusing on opportunities rather than problems?
- Do you know how to communicate what is going right rather than what is going wrong?
- Do you know how to communicate by envisioning what might be?

If your answer was “no” to any of the above, then this training will be helpful to you!

Who should attend?

This course is designed for Novant Health leaders who have **not** attended the New Leader Immersion Retreat or the Transformational Leadership classes.
