

N: Microlearning

Do you want to provide learning opportunities for your team members but find it hard to send them to an all-day class?

Try one of Novant Health's microlearning sessions! Microlearning targets specific skills or topics and is designed to enhance job performance through easy to access, short, effective training that is relevant to the team member's job role.

These classes are instructor-led, interactive, and taught online using the latest technology. Sessions are scheduled for 60 minutes or less. All that is needed is a computer and a telephone. No travel is involved! **Register Now In I-Learn!**
