

N: API Staff Scheduling-Spv, Schd, S

API scheduling class invitation!

The **API Staff Scheduling-Spv, Schd, S** class will prepare you to assume a new role such as a supervisor, scheduler, or staffer as a requirement for being given access to the **API scheduling** features required for these roles.

Consider the following for attending this class:

- Does my department use the Staff Scheduling function in API Time and Staffing?
- As a new supervisor, scheduler, staffer in API Scheduling, do I need this course to get my role access turned on?
- Do I need to know how to create and/or update schedules in API Staff Scheduling?

Who needs to attend?

All new supervisors, schedulers and staffers in departments that use the API Staff Scheduling application. (formerly ActiveStaffer)

Class date, time, and location

Monday, December 2, 8:30 a.m. to 2:30 p.m.

Midtown Medical Plaza
Chestnut Computer Room
1918 Randolph Road
Charlotte, NC 28204

Learning objectives:

- Navigate through the Staff Scheduling solution in API Time and Staffing.
- Utilize the terminology of API Staff Scheduling
- Identify the setup and subsequent steps needed to create a schedule in API Staff Scheduling
- Manage requests and schedule changes on a daily basis
